

RANGE:

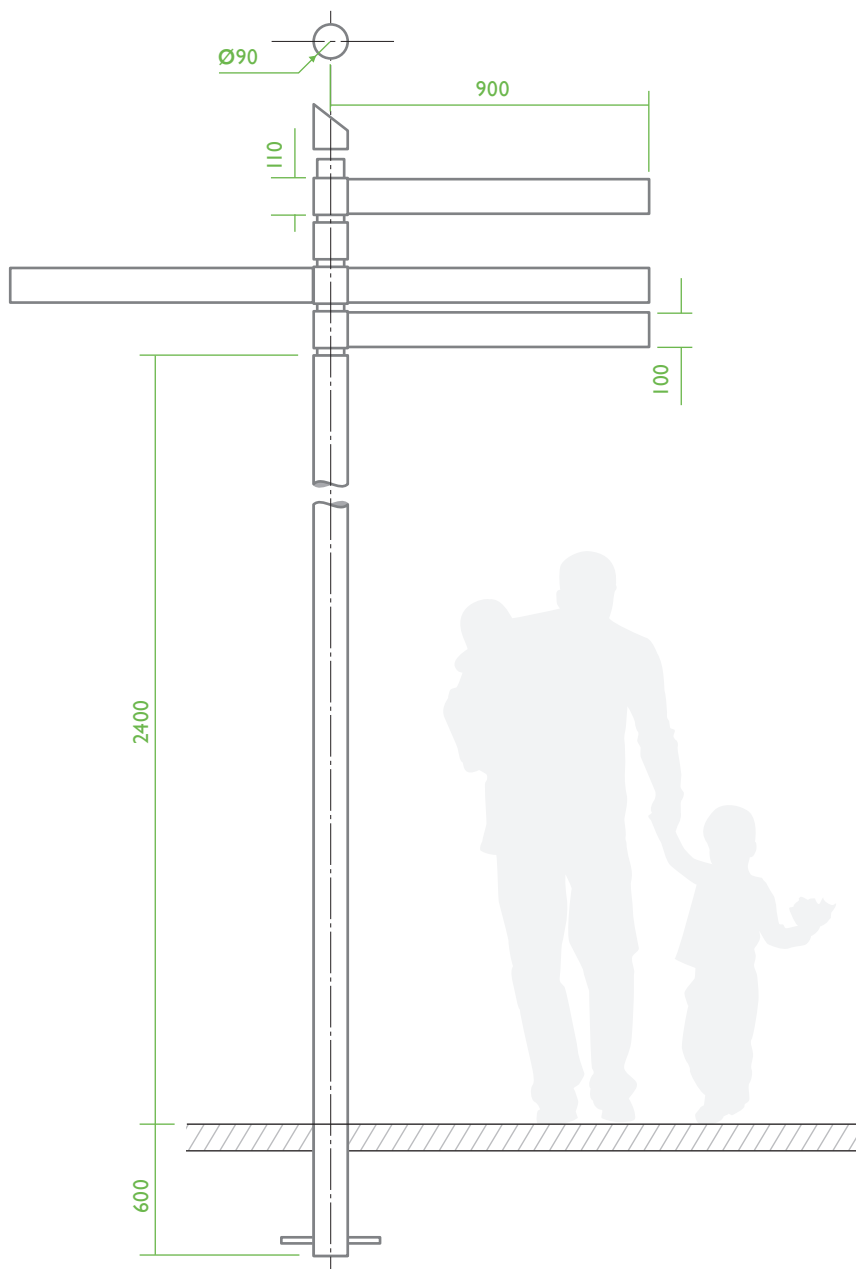

Foeverer.

## Directional Fingerpost Signage

DIMENSIONS:

SPECIFICATION:

### Construction:

Like every product in our Foeverer Range, we use 316 Stainless Steel throughout for maximum lifespan, even in coastal areas.

Flexible, interchangeable signage system with a wide range of fingerarm options including shape, cutouts, fonts and symbols.

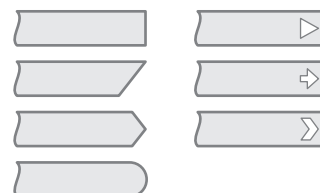

### Details:

Common dimensions are:  
First post 2400mm above ground  
Up to 10 signs and spacers  
600mm below ground  
900mm fingers (from centre)  
90mm diameter tubing

As all our Foeverer Range is fabricated to order in the UK, any design can be accommodated.

### Options:

Many finger variations including:

Many finial variations including:
