

RANGE:

Litter Bins

SPECIFICATION:

Materials:

Like every product in our Forever Range, we use 316 Stainless Steel throughout for maximum lifespan, even in coastal areas.

Strong plate construction makes this design extremely durable and vandal-proof, while the slim design fits well with a variety of planning schemes.

Details:

Common dimensions are:
1100mm above ground
300mm below ground
400mm depth
650mm wide

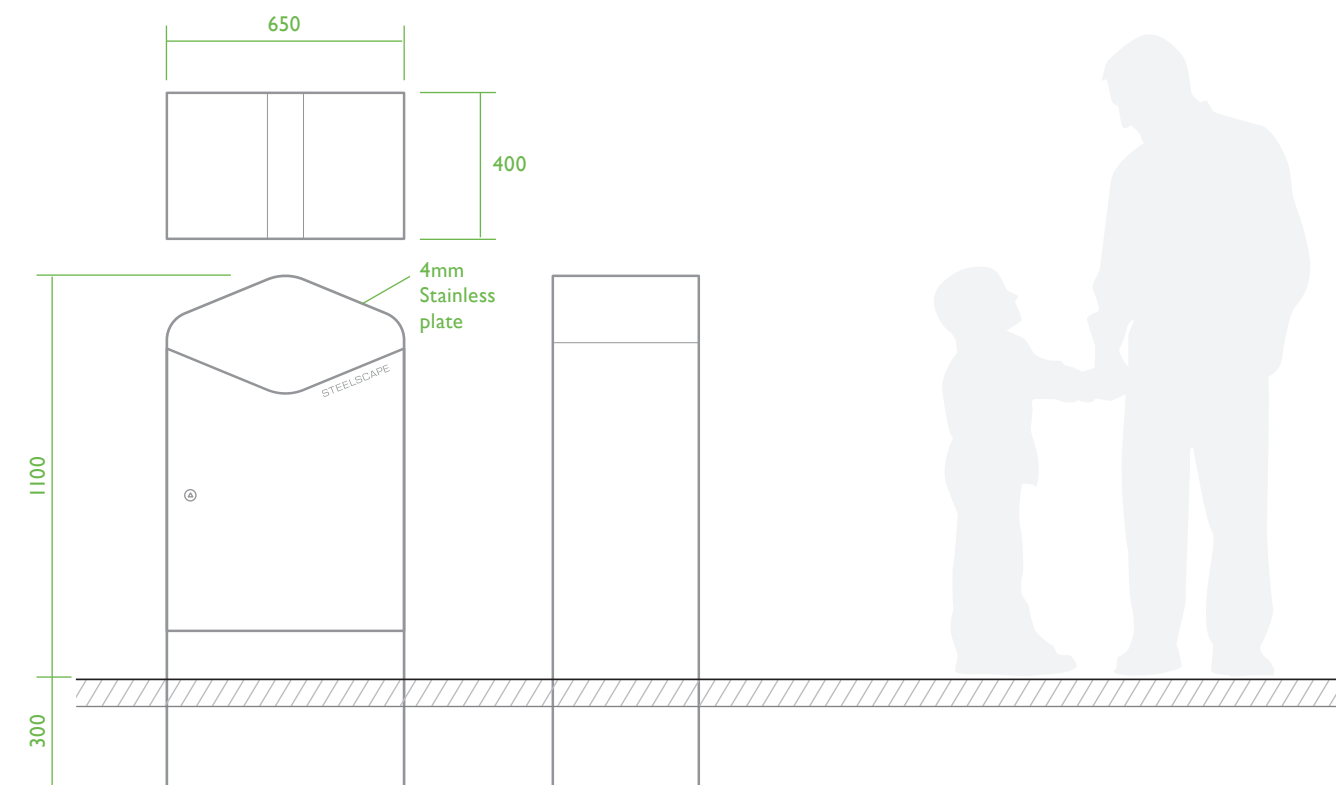

170 litres capacity approx
Stainless or Galvanised Lining
As all our Forever Range is fabricated to order in the UK, any design can be accommodated.

Options:

Available surface-mounted or with extensions for excavation.

Bins can be split to accommodate recycling facilities.
